

MARS SIGNS AND BANNERS

As you may, or may not know, AF MARS has not had a budget for several years, which means that the handouts, signs and banners have not been available for quite some time. AFF1W has made some “do it yourself” items available as downloads on the region web site, however.

We just learned that Jim Edmonds, AFA1CM/AFF1X has arranged for a local source, in his area, to print MARS banners and magnetic signs. Mike Carl, AFA1UJ/AFF1E, furnished a high resolution digital copy of the MARS emblem, which was accepted as the master for this work. The sign maker had rejected several others as insufficient resolution.

Jim is now accepting orders for banners and signs, if you are interested. Currently the sign maker's prices are \$80 for the banner and \$25 for the magnetic signs. And of course there's always tax and shipping to consider. If you are interested or have questions, please contact Jim at afa1cm@marsregionone.org.

The magnetic sign is 12" X 12"

The banner is 2' X 3' on vinyl with grommets in the upper corners and a “pole pocket” to keep the banner straight.
